## CAUTION! DRY ICE INSIDE

Dear Customer,

The contents of your package are highly perishable. **Dry Ice** was used to help keep your delectable desserts at the desired temperature.

Dry ice requires careful handling. Please follow our instructions, when handling dry ice.

To remove your desserts, please follow the instructions.

### OPENING INSTRUCTIONS:

1. Prior to removing the inner dessert box, remove the Styrofoam lid and slide out the shorter Styrofoam piece at one of the ends. This will allow more mobility to remove the dessert box.
2. Carefully remove the dry ice packaging with gloves ON and place on top of the Styrofoam lid.
3. Remove the dessert box and immediately place in the freezer.
4. To dispose of the dry ice, place the dry ice packaging inside the Styrofoam box with the lid off in a well ventilated area. The dry ice will evaporate.

### SERVING INSTRUCTIONS:

1. To serve, remove cakes from freezer, remove acetate strips from the outside of each cake. Place on serving dishes in refrigerator 2-4 hours prior to serving.
2. To thaw, follow step one above. Then place on serving dishes on counter 1 - 1 ½ hours prior to serving.

- ⚠ **Do not touch dry ice without gloves**
